Out of Sight--Out of Mind

☆ Out of Business ☆

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

☆

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

What this symbol means to you

Accuracy

Publishing production supervised by trained, experienced, professional Directory specialists.

Quality

A tradition of pride in producing the best publication possible, always with a view to improvement.

Standardization

Cooperation of publishers toward a uniformity of contents, features and arrangement of departments, making for a maximum of convenience and service to the user, with a watchful eye kept on the changing times and public needs, and with a continual exchange of ideas.

Dependability

A trade-mark representing a reputation for reliability and responsibility established prior to the turn of the century, and maintained throughout the years.

***Association of North American Directory Publishers**

EAST HARTFORD NUMERICAL DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation r between the street number and the name signifies "rear."

The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made.

"Right odd" after street description indicates odd numbers on right side of street.

The symbol © following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.

When You Want to Know:

—where a person lives.

—what his occupation is.

—who lives at a certain number on a street.

—where a street is located.

—the correct spelling of a name.

—the officers of a corporation.

—the partners in a firm.

—the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.

—*you can quickly find the answer in the City Directory.*

NUMERICAL DIRECTORY

ITS PRACTICAL USE IS TO GIVE

Information—as to street descriptions and their location on city map.

Information—as to the location by number of intersecting streets and their relation to other numbers.

Information—as to the name of every householder at any given street number.

Information—as to the name of every place of business and its nature at any given street number.

Information—as to the location of telephones (*) by street number.

Information—as to the character of any street or district.

Information—as to the number of families living at any number and who they are.

Information—as to the correct spelling of names when addresses are known.

Information—as to sections capable of producing the greatest amount of business by personal solicitation or **"direct mail".**

—Finally—

It takes the "Who is it?" out of your neighborhood and adds another link to your chain of friendliness
